Unfortunately the name of a supporter and the project number were missing in the “Acknowledgements” section. The updated paragraph reads as follows:

Acknowledgements. The work was carried out in the framework of the İzmir Bay Marine Research Project and has been supported by TÜBİTAK (Project No.: 115Y260). We acknowledge IMST/DEU for realizing the cruises. We also extend our thanks to the people who participated in the cruises. Special thanks are due to Deniz Ünsalan for his help with improving the manuscript.
