We regret to have found errors in our manuscript entitled “Biogeography of planktonic bacterial communities across the whole Mediterranean Sea” (Ocean Sci., 9, 585–595, doi:10.5194/os-9-585-2013, 2013). The corrections are listed below.

Eva Teira and Victor Hernando-Morales were added to the main authors of the paper.

In Sect. 2.3., line 25, the words “in collaboration with the University of Vigo” are missing, the paragraph should read:

“(ii) samples from eight stations across a vertical profile covering epi-, meso- and bathypelagic zones of the water column, performed respectively at the University of Milan and Instituto Español de Oceanografía (IEO) in collaboration with the University of Vigo.”

In the “Acknowledgements”, immediately after “(Ref. CTM2010-12244-E)” the words “and Relación entre la diversidad funcional del bacterioplancton y la circulación de carbono en el océano superficial de la costa NO de la Península Ibérica. DIFUNCAR (Ref. CTM2008-03790/MAR) ...” are missing, the whole paragraph should read:

Acknowledgements. We gratefully thank the master and crew of the R/V *Meteor* for excellent technical assistance. Special thanks to V. Hernando-Morales and E. Teira for help with the ARISA fingerprinting and to Giuseppe Civitarese for nutrient analyses. The authors wish to thank the anonymous reviewers for their constructive comments. F. Mapelli was supported by Università degli Studi di Milano, European Social Fund (FSE) and Regione Lombardia (contract “Dote Ricerca”). R. Alvariño was supported by a Master Scholarship by the “Campus do Mar”. The work has been partially supported by the European Community FP7-KBBE-2010-4 project ULIXES grant agreement N. 266473 and the project “Transecto en el Mar Mediterráneo: del 2001 al 2011”, MED-SEA-REPEAT (Ref. CTM2010-12244-E) and “Relación entre la diversidad funcional del bacterioplancton y la circulación de carbono en el océano superficial de la costa NO de la Península Ibérica”. DIFUNCAR (Ref. CTM2008-03790/MAR) funded by the Spanish National I+D Plan.
